idea

IDEA. AS MANY SOLUTIONS AS THERE ARE IDEAS.

From the meticulous design of the Classica plate to the rounded contours of the Rondò plate. From the timeless appeal of anthracite grey buttons to the modest sobriety of white buttons. 26 colours and four different materials: solid wood; metal; technopolymer, glossy and silky. With Idea the installation solutions are numerous, and freedom of choice is maximised. Now even your electrical system can be matched to your home decor style.

Idea Classica. The meticulous design of the Classica cover plate with anthracite grey buttons.

Idea Rondò. The soft design of the Rondò cover plate with white buttons.

MATERIALS.

A wide selection, of materials first and foremost: wood, metal, silk, technopolymer, all available in various colours. Plates with warm and classic colours, with sophisticated hues and bright shades to match with anthracite grey or white buttons. With the greatest freedom of design choice.

General features

Versatile and modular solutions for an extensive installation

Control equipment and socket outlets how and where you want them: a wide range of devices with great installation versatility that meet major international standards. Thanks to the different modularity of the devices (from 1 to 3 modules), different installation standards (with cover plates of from 1 to 18 modules) and fixing the device to the mounting frame (inserting/removing) it is possible to design installation solutions with a high level of safety.

Modular devices and cover plates

The modular device with from 1 to 3 modules lets you install multiple devices of different modularity in a single mounting frame, up to a composition of 18 modules for cover plates size 6+6+6. The mounting frame that installs the devices is equipped with interlocking teeth that provide strong and reliable fixing for each single device and allows perfect alignment between devices such as to create an orderly and visually pleasing stylistic effect.

Flexible installation

The images show how different pairs of devices from 1 to 3 modules can be installed in the same mounting frame.

3 x 1-module

1 x 1-module and 1 x 2-module

1 x 3-module

General features

Controls

Controlling the light, activating a scenario or managing loads are just some of the many uses of energy. The combination of mechanics and technology enables simplifying these daily gestures in operating a simple device, as a rocker or a push-button, with precision and an intuitive understanding of the associated functions.

Backlighting and customization

The backlighting with different colours makes the controls visible even in the dark, while the symbols, either laser-engraved or customized on site, always give a clear indication of the various functions.

Button colour versions

For the Idea controls, two different colours: from the lightness of white to the rigour of anthracite grey. In the name of a technology that has never been separated from design.

Wiring with screw clamps

All Idea devices use traditional wiring with screw clamps which consists of clamps with a curved metal plate that locks the cable via a crosshead screw and is ideal for flexible or semi-rigid cables with a cross-section of from 0,5 mm² to 2,5 mm².

Screw clamps.

Composed of a curved metal plate that clamps the cable by means of a crosshead screw.

Special housing for the signalling unit.

Special housing for the signalling unit, backlighting and visibility of controls even in the dark.

Use of cables with different cross-sections.

Wiring with a flexible or semi-rigid cable with a cross-section of from 0,5 mm² to 2,5 mm².

General features

Devices for control

Different sized buttons and cover plates in two designs for every installation requirement. Elegant symbols that instantly identify the functions, soft and silent button actions, for the ultimate in home comfort.

Modular design

Devices

Night&day symbols

Devices for energy efficiency

Thermostats that adjust the temperature to actual everyday needs; devices that control electrical loads and monitor consumption; programmable timer-switches that switch the devices on at the right time, to rationally manage all the energy in your home.

Time delay switch

Load control

Timer-thermostat

General features

Devices for comfort

From the morning wake-up call to the temperature that welcomes you on your return home, to switching on the outside lights in the evening. You can plan the climate you prefer in every single room, create the right atmosphere for a special occasion or a precise moment of the day by adjusting the brightness of the lights. To get the greatest possible pleasure from your home.

Dimmer

Timer-thermostat

Timer switch

Devices for safety

Accurate, constant monitoring of people and property: you're safe 24 hours a day. Technical alarms that instantly warn of a gas leak, power surge, black out or if intruders are detected, sending you a text message; interlocked sockets and emergency lighting, always ready to cut in and ensure your safety.

Transponder card and key reader

Methane gas detector

Interlocked socket outlet

HOME AUTOMATION: ENERGY EFFICIENCY, SAFETY AND COMFORT WORK TOGETHER.

Inside a home automation building the various functions dialogue with each other comprehensively and continually, facilitating large as well as small daily actions and ensuring greater energy efficiency, safety, comfort and control.

Many solutions and all controlled from a single point. Centralized supervision to optimize energy consumption, check who is at your door, regulate the climate and lighting, move the roller shutters, activate or deactivate the burglar alarm system, view the filming of the video surveillance cameras. Because we want you to experience your home in the best way possible.

ENERGY EFFICIENCY

Monitor and view the energy consumed by single loads, efficiently control the temperature for greater energy awareness.

SAFETY AND SECURITY

A simple and effective alarm system, devices for detecting people entering, a wide range of devices to keep the rooms under control.

COMFORT

The desired temperature throughout the house, controlling and programming it for different rooms and home automation controls to create preset scenarios depending on your needs.

CONTROL

All the functions in the dwelling can also be controlled locally by numerous devices, to personalize the room according to the needs of the moment.

BUILDING AUTOMATION SYSTEM FOR EFFICIENCY, SAFETY AND SECURITY, COMFORT AND CONTROL OF BUILDINGS.

From lighting to access control, from monitoring consumption to dialogue with other devices in the structure, it can all be managed via Well-contact Plus. A unique system developed on the KNX standard that enables programming, coordinating and supervising all the functions in the building whether it be an office, hotel, shop or gym.

ENERGY EFFICIENCY

Integration with the systems already present in the structure allows real benefits, avoids wasting energy and improves wellness.

SAFETY AND SECURITY

Transponder reader to open the electrical lock and turn on the lights in the rooms only for authorized persons.

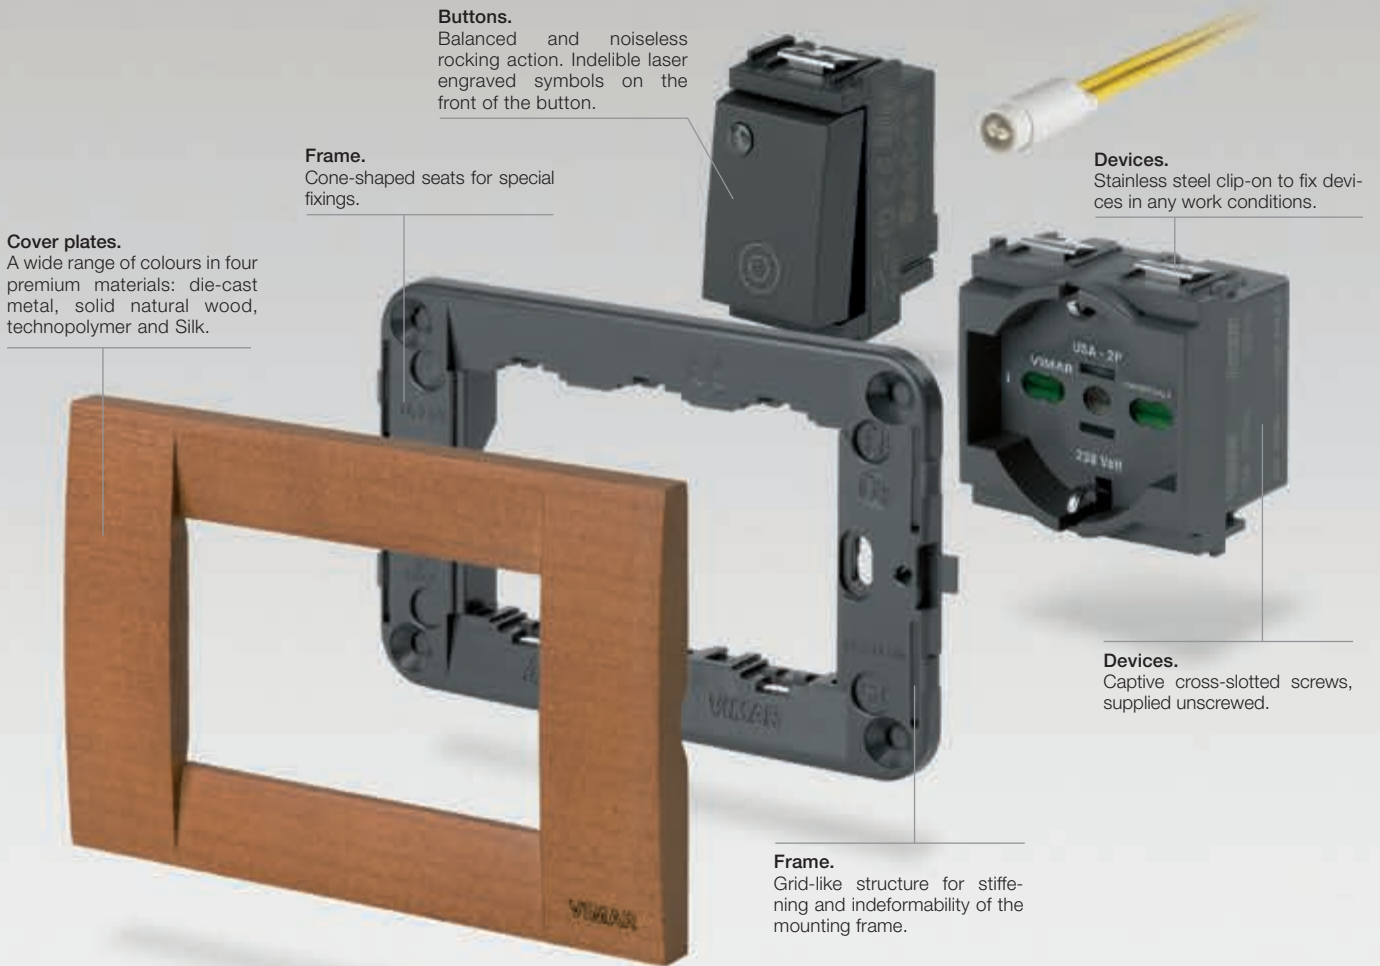

COMFORT

KNX controls to automate all the functions of the building from the roller shutters to the lighting.

CONTROL

Supervising and controlling a room or the entire building via stylish devices featuring intuitive icons.

Reduced module

The most important functions are realized also with a reduced module to have 2 appliances or 1 appliance sized 2 modules in \varnothing 60 mm or in square mounting boxes.

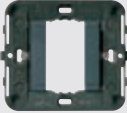

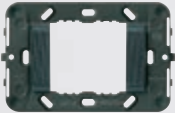

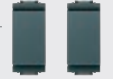

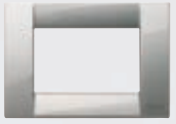

Device fixing and removing

Fixing from rear of the mounting frame.

Removal with use of a tool, possible also from the front of the device.

Composition	Box	Frame	Module	Cover plate
 Panel mounting	 Panel mounting	 With screws	 1-module	 From 1 to 2 modules Classica or Rondò*
 From 1 to 2 modules	 Flush mounting  Surface mounting	 1 module with/without screws or with claws  2 reduced-modules with/without screws or with claws	 1-module  2 x 1-reduced-module	 1 or 2 reduced-module Classica or Rondò*
 For 2 central modules	 Flush mounting  Surface mounting	 Without screws  With screws	 2 x 1-module  1 x 2-module  3 x 1-module  1- and 2-module  1 x 3-module	 From 3 to 6 modules Classica or Rondò*
 From 3 to 6 modules	 Table mounting 3 and 6 modules	 Table box	 3 x 1-module  1- and 2-module  1 x 3-module	 3 and 6 modules Classica only*

* For other composition, see 'Types of mounting' from page 50

Electronic thermostats (230 V~ 50/60 Hz)

Δ 16580
Heating, fixed temperature reduction cycle - 3 modules.
Depth: 39,5 mm

Δ 16581
Heating and air-conditioning, settable temperature reduction cycle - 3 modules.
Depth: 39,5 mm

Δ 16580.B
Heating, fixed temperature reduction cycle - 3 modules.
Depth: 39,5 mm

Electronic thermostat kit

16991
Contains:
• 1 touch screen thermostat 02950, 5(2) A 230 V~ change-over relay contact, supply voltage 120-230 V~ 50/60 Hz;
• 1 blank module 19041;
• 1 3-module mounting frame 16723.
To complete with 3-module Idea cover plate

Electronic timer-thermostats

Δ 16575
Heating and air-conditioning, supply voltage 120-230 V~ 50/60 Hz - 3 modules.
Depth: 40 mm

Δ 16575.B
Heating and air-conditioning, supply voltage 120-230 V~ 50/60 Hz - 3 modules.
Depth: 40 mm

Δ 16576.B
Heating and air-conditioning, 1,5 V-battery - 3 modules.
Depth: 40 mm

Electronic timer-thermostat kit

16990
Contains:
• 1 timer-thermostat 19446, 5(2) A 250 V~ change-over relay output, AA LR6 1,5 V battery powered;
• 1 3-module mounting frame 16723.
To complete with 3-module Idea cover plate

16992
Contains:
• 1 touch screen timer-thermostat 02955, 5(2) A 230 V~ change-over relay contact, supply voltage 120-230 V~ 50/60 Hz;
• 1 3-module mounting frame 16723.
To complete with 3-module Idea cover plate

Clocks (120-230 V~ 50/60 Hz)

16582
Timer-switch, 1 relay output - 3 modules.
Depth: 40 mm

01467
Device with 3 analogue signal inputs, 1 0-10 V or 4-20 mA input, 1 NTC sensor input, 1 brightness sensor 01530 input, 2 x 17,5 mm modules

By-me: automation - Electronic supply units

01874
230 V~ 50 Hz, for controllable LED lamps, 12-24 Vdc

01874.120
As above, 120 V~

01875
230 V~ 50 Hz, for controllable LED lamps, 350/500/700 mA

01875.120
As above, 120 V~

By-me: automation - Electronic transformers

Δ 01860.60
20-60 W, 12 V~ (SELV) output, 230-240 V~ 50/60 Hz

01860.105
20-105 W, 12 V~ (SELV) output, 230-240 V~ 50/60 Hz

Grey

White

By-me: automation - Devices

16955
Interface for traditional switches 230 V~/12-24 Vac/dc - 2 modules.
Depth: 36,5 mm

Temperature control

02952
Touch screen thermostat for ambient temperature control of 2 independent zones, KNX standard, NO 4 A 24 V~ relay output + 1 temperature sensor input + 1 programmable digital input - 2 modules. To be installed with dedicated 16723 mounting frame. Depth: 38,5 mm

16915
Thermostat for ambient temperature control of 2 independent zones (heating and air-conditioning), KNX standard, NO 4 A 24 V~ relay output + 1 temperature sensor input + 1 programmable input - 2 modules. Depth: 36,5 mm

02952.B
Touch screen thermostat for ambient temperature control of 2 independent zones, KNX standard, NO 4 A 24 V~ relay output + 1 temperature sensor input + 1 programmable digital input - 2 modules. To be installed with dedicated 16723.B mounting frame. Depth: 38,5 mm

16915.B
Thermostat for ambient temperature control of 2 independent zones (heating and air-conditioning), KNX standard, NO 4 A 24 V~ relay output + 1 temperature sensor input + 1 programmable input - 2 modules. Depth: 36,5 mm

Temperature control - Linear temperature sensor

02965.1
Wired temperature sensor, NTC 10 kΩ, cable length 3 m

01546
Weather station, KNX standard, power supply 12-32 Vdc or 12-24 Vac

Temperature control - Weather station

Brightness and presence sensors

▲ 01527
IR presence detector, 360° motion range, ON/OFF and adjustment of lighting, heating, air conditioning, ventilation, 1-1000 Lux adjustable brightness range, KNX standard, for ceiling installation. Dimensions: 80x80x45 mm

▲ 01527.S
Adapter for 01527 detector ceiling installation

▲ 01529.1
IR presence detector, 360° motion range, for ON/OFF lighting, 1-1000 Lux adjustable brightness range, KNX standard, for ceiling installation. Dimensions: 91x91x45 mm

▲ 01529.1.S
Adapter for 01529.1 detector ceiling installation

▲ 01529
IR presence detector, 360° motion range, for lightings depending on the brightness, 0-1000 Lux adjustable brightness range, KNX standard, for ceiling installation

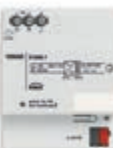

▲ 01529.S
Adapter for 01529 detector ceiling installation

01530
Light sensor for dimmer 01528, KNX standard, ceiling installation

Building automation: Well-contact Plus

Customization

Devices and cover plates customization

Vimar laser technology allows the reproduction of any name, logotype or trademark, with absolute precision and indelebility, even for small quantities.

Information

- all devices, buttons and cover plates are customized depending on conditions described below;
- the following finishings of cover plates are not customizable: **Die-cast metal: antique brass (.37). 12-and 18-module cover plates: 16748.V23 and 16749.V23;**
- **Wooden cover plate** customization: prices and quantities agreed with the commercial networks.
- for button engravings, make sure that the desired symbol or label is not already included in the table 'Standard symbols and wordings' below; if so, simply indicate the corresponding code in addition to the article code in your order.
- the customization is not visible in darkness.

Laser customization advantages

- indelible engraving that does not deteriorate over time;
- high-precision reproduction even of very fine lines and complex images;
- service available even for minimal quantities;
- possibility of ordering the same customization at different times with identical results.

The few limits of technology

- it is not possible to reproduce coloured images.

What to supply

- a printout of the image to be reproduced, in black-and-white line drawing scaled 2 or 3 times larger than the finished size;
- an image in EPS, TIFF or JPEG format of the subject to be reproduced.

Things to avoid

- do not provide photocopies;
- do not fax the image to be reproduced, because the low definition of the fax makes it impossible to reproduce the customization with the high quality of laser system.

How to proceed

- enclose (without paper clips, staples or adhesive tape) or send the image to be reproduced;
- deliver all the documentation to your area wholesaler/distributor, who will then forward it to Vimar.

Estimated lead times for devices and cover plates

- 10 working days for the sample;
- 10 working days from confirmation for completed order.

Customizable positions

Customized cover plate

Only for die-cast metal cover plates

Customizable switches and buttons

Customization not visible in darkness.

Smart card customization

The rear of the card can be customised on request, by providing a digital image of the subject in eps, tiff or jpg format.
